# HostFreedom

*You have control over your monthly fees – it's easier than ever.*

You know your business better than anyone else. So you should decide how much you pay for merchant services. HostFreedom gives you the flexibility to decide what fee structure works best for you, based on your monthly processing volume and average ticket size.

## Here's an example of how it works:

- >Your average ticket size is more than \$20, so you'll work from Chart A
- >Your average monthly processing is \$3,800, so you would select Plan 2 with a maximum monthly volume of \$5,000 – this gives you the freedom to grow your business and still process at the flat monthly rate of \$109
- >You sometimes have months where your volume is higher than your average – but HostFreedom builds in bonus volume of \$1,000 in each plan, so Plan 2 is still right for you
- >If you find your volume exceeds expectations and sales increase, additional volume will be automatically purchased in \$20 increments for each \$500 in processing volume needed – that means you can do more business and your original flat rate is still in place
- >If your business grows so much that your average monthly sales exceeds \$5,000, you simply request a change to the next plan level – you'll still continue to save

## Focus on Your Business, Not Your Statement
