Specifications and pricing

Next level Point of Sale

Get everything you need in a power packed touch-screen point of sale workstation that offers two customized layouts optimized for either retail or restaurant environments. The durable design is built for the toughest of business environments. Connect a wireless tablet and put the power in your hands for everything from inventory to taking orders at a table.

Business sales systems should be powerful, intuitive, and inexpensive.

Bonsai Point of Sale brings the technology of our modern world into businesses leveraging the power of modern processing and wireless capabilities. Accept contact-less NFC payments from smart-phones and EMV chip cards with ease. Bonsai uses high grade security to keep your information safe and real-time backups ensure you never loose your data. Best of all, Bonsai OS is constantly improving and updates are always free so don't worry about falling behind the times.
